

Key Teaching Practices

Key Teaching Practices (KTPs) are a component of Initial Teacher Education (ITE) programmes. The KTPs for our programmes were determined in collaboration with our teaching community and are designed to provide assurance that Student Teachers are ready to begin teaching by the end of their ITE programme. They are discrete practices, aligned to the Standards for the Teaching Profession, observable and measurable and capture essential aspects of practical and professional work. They are high priority in the sense that they represent key aspects of in the work with children and young people that beginning teachers should be able to undertake independently from their first day of teaching as a registered and provisionally certificated teacher.

Student Teachers will be expected, when asked, to provide evidence of having met the KTPs below by the end of their programme. They are scaffolded towards this through the indicators below that provide for progression towards the KTPs. The indicators are also used to summatively assess competence on teaching experiences. To pass their teaching experiences in the first half-year, Student Teachers must undertake the KTPs with direct supervision or indirect supervision (as indicated below) by the programme's midpoint. To pass their teaching experiences in the second half-year Student Teachers must undertake the KTPs independently (as indicated below) by the end of the eight-week final teaching experience.

Te Waharoa

Our ITE programmes are framed by Te Waharoa and **Te Tiriti o Waitangi**, and these are reflected in our KTPs. They emphasise:

- **Mātauranga** – our programmes are underpinning by te ao Māori, emphasising criticality and insisting on depth of knowledge
- **Te mana o te whenua** – our programmes are culturally located and place-based
- **Te reo me ngā tikanga** – our programmes build and sustain te reo and tikanga
- **Tangatarua** – our programmes foster tangata whenua and tangata Tiriti identities and aspirations, including those of Pacific and migrant communities
- **Whanaungatanga** – our programmes promote inclusion, relationality, and collective success
- **Wairua** – our programmes enhance the spirit of education, including creative and embodied learning.
