

**FACULTY OF HUMANITIES AND SOCIAL SCIENCES**

**SCHOOL OF LINGUISTICS AND APPLIED LANGUAGE STUDIES**

**MASTER OF ARTS**

**LALS 531 COMPUTER-ASSISTED LANGUAGE LEARNING**

**15 POINTS**

**TRIMESTER 2 2014**

**Important dates**

**Trimester dates:** 14 July to 16 November 2014

**Teaching dates:** 14 July to 17 October 2014

**Mid-trimester break:** 25 August to 7 September 2014

**Last assessment item due:** 16 October 2014

**Withdrawal dates:** Refer to [www.victoria.ac.nz/students/study/withdrawals-refunds](http://www.victoria.ac.nz/students/study/withdrawals-refunds). If you cannot complete an assignment or sit a test or examination, refer to [www.victoria.ac.nz/students/study/exams/aegrotats](http://www.victoria.ac.nz/students/study/exams/aegrotats).

**Class times and locations**

Classes will be held on Thursday 16:10-18:00 in 24KP, room 101 (unless otherwise indicated). For distance students, the virtual venue is the LALS531 Blackboard site.

**Names and contact details**

**Course Coordinator**

Dr Irina Elgort	Office:	10 Waiteata Road, Room 107
	In office:	10 am – 12 pm Tuesdays or by appointment
	Phone:	+64 4 4635970
	Skype:	irina_elgort
	E-mail:	<a href="mailto:Irina.Elgort@vuw.ac.nz">Irina.Elgort@vuw.ac.nz</a>
	Post:	School of Linguistics and Applied Language Studies Victoria University of Wellington PO Box 600 Wellington 6140 New Zealand

## Course administrator

Janet Attrill      Office:            von Zedlitz Building, Room VZ210  
                         Phone:            463 5894 or 463 5600  
                         E-mail:          Janet.Attrill@vuw.ac.nz  
                         Post:             As above

## Communication of additional information

Additional information about this course and information about any changes will be posted on the course website in Blackboard.

## Prescription

This course engages participants in a critical examination of theoretical and practical issues in Computer-Assisted Language Learning (CALL). Students will develop an understanding about using, evaluating and designing digital materials and tools for language learning and teaching. Students will also engage in creative thinking by undertaking a CALL project.

## Course content

### Week Topics

---

1-2    Introduction to Computer-assisted language learning (CALL);  
      SLA theory and CALL; Applications of CALL: vocabulary, pronunciation, listening, reading, writing, assessment.

---

3-4    Applications of CALL for language teaching and learning (continued):  
      Computer Mediated Communication (CMC), Technologies and environments (Web 2.0; mobile learning; authoring tools, virtual learning environments).

---

5-6    CALL Evaluation

---

7-8    CALL Design, Development and Practice

---

9-10   CALL Research;  
       Learner Autonomy and CALL

---

## Course learning objectives (CLOs)

Students who pass this course should be able to:

1. demonstrate a high level of understanding about the relationship between capabilities of digital technologies and language learning/teaching opportunities;
2. locate, select and use technologies for specific language learning/teaching tasks;
3. evaluate CALL resources, tools and environments;
4. design and implement CALL activities and resources for specific teaching contexts and learner groups.

## Teaching format

The course is delivered in two modes: on campus and by distance. On campus classes are run as seminars and workshops. For distance students the course is taught online (using Blackboard) and requires students to follow the schedule of readings, course activities and assessment as specified in the course outline.

## Mandatory course requirements

In addition to achieving an overall pass mark of 50%, students must submit the work specified in this course outline on (or prior to) the specified dates (subject to such provisions as are stated for late submission of work).

## Workload

It is anticipated that students will devote, on average, 15 hours a week to this course. Over ten weeks, your expected workload should be approximately 150 hours, although students aiming for a high grade will almost certainly require more time.

On average, students taking this course are expected to spend about 7-8 hours a week on reading and reviewing, and 7-8 hours engaging in course tasks and assessment activities. Within this time allocation, on-campus students will spend 2 hours a week in class.

## Assessment

This course is **internally assessed**: there is no final examination. The course will be assessed as follows:

Assessment	Due date	Weighting	Learning Objective/s
Biweekly CRAs (critical reading assignments)	1. Tuesday, 22 July 2. Tuesday, 5 August 3. Tuesday, 16 September 4. Tuesday, 30 September	2 best submissions contribute to <b>10%</b> of the final course mark	Objective 1
Course tasks:		<b>20%</b>	
Task 1 <u>or</u> 2;	Friday, 1 August	Complete two tasks,	Objectives
Task 3	Tuesday, 23 September	10% each	2,3,4
CALL wiki	- Tuesday, 12 August: Wiki page submission; - Thursday, 14 August: Comments/feedback on a wiki page by another student	<b>30%</b>	Objectives 1,2,3
CALL Project	Friday, 22 August: Project proposal; Thursday, 9 October: Project presentation; Thursday, 16 October: Project submission.	<b>40%</b>	Objectives 1,2,3,4

## **CRAs (Critical Reading Assignments)**

CRAs are critical reflections on course readings in the form of blog (online journal) entries. They are due fortnightly on Tuesdays. Each CRA is expected to be no longer than 500 words. You are required to submit at least 3 CRAs, from which two best submissions will count towards 10% of the final course mark.

In CRAs, you will

1. critically evaluate key points / ideas from your course readings, from the perspective of your prior knowledge/understanding of the topic or your teaching experience,
- OR
2. analyse and reflect on examples from your teaching/learning practice, by applying frameworks from the readings; compare your experiences with research findings/examples from the course readings.

## **Course tasks**

Complete two tasks: you will choose between Task 1 & 2; Task 3 must be completed by all students.

- Task 1. Create a CALL *exercise or activity*;
- Task 2. Create a *teaching/learning resource* using a digital technology/tool;
- Task 3. Evaluate an existing CALL tool/program/resource/website. This submission should be no longer than 1000 words.

## **CALL wiki (knowledge base web site)**

A wiki is a type of web site. The CALL wiki assignment can be completed individually or in pairs. Each student or pair is responsible for one selected topic in the CALL wiki. The total contribution by a student will be no longer than 1500 words (or 2000 for a pair). In addition to creating their own wiki pages, students are required to provide commentary/feedback on at least one selected wiki page created by a class mate. This commentary is worth 20% of the wiki assignment mark.

## **CALL project**

Project proposals are limited to 300 words and must be submitted prior to or on the due date. Final Project submissions should be no longer than 2500 words, not including figures and tables. Project presentations (2-3 slides / 3-5 minutes) should be made available for peer feedback on the due date.

## **The key criteria for marking are:**

- Coherence and clarity of the argumentation;
- Evidence of depth and breadth of relevant reading;
- Evidence of a creative and principled approach to completing course tasks;
- Degree of learning autonomy (demonstrated ability to develop a personal learning path through the course syllabus).

## **Submitting assessments**

### General guidelines for word-processed work

- Set margins to at least 2.5 cm
- Set line spacing to 1.5
- Set font size of 12 point
- Set paper size to A4
- Include page numbers
- Include the course number, your name, your student ID number and the title of the assignment on the first page.
- Provide a word count at the end of the assignment (not including the Reference section)

All assessed work in this course must be fully referenced, following APA guidelines.

Further details about assessment and marking criteria are published in Blackboard. If you have a problem with meeting the deadlines, you must approach the lecturer as early as possible.

## **Relationship between course assessment and Victoria graduate profile**

This course is based on the principles of assessment for learning. It builds on smaller pieces of assessment towards the final project, encouraging students to explore key topics of the course in relation to their teaching context, pedagogical approaches and personal preferences for digital tools. A certain level of learner autonomy is expected, as students are encouraged to manage their workload by selecting from a range of recommended readings and learning activities. Successful students should be able to create their own learning path through the course, while adhering to the assessment requirements.

Fortnightly CRA submissions engage students in a critical reflection on course readings, in order to develop higher level specialised understanding of CALL. By constructing a CALL wiki knowledge base students collectively build up knowledge and understanding of the key topics and concepts in CALL. Course tasks provide opportunities to try out computer tools for creating teaching and learning materials, and to evaluate an existing CALL tool or resource. The final course project, which builds on all other pieces of assessment, is an opportunity to think creatively about application of the knowledge acquired in the course and to develop CALL design and implementation skills. Students will be provided with opportunities to communicate their original ideas and provide comments and feedback in the learning journals, CALL wiki and online project presentations.

## **Submission and return of work**

In this course, students are required to submit all assessed work electronically, using Blackboard. Feedback on all course submissions will be provided in Blackboard. All course submissions, excluding the final project, will be marked within 2 weeks. Final projects will be marked within 4 weeks.

## **Extensions and penalties**

The statement on deadlines in the School MA Handbook applies to this course. Any course work that is plagiarised will not receive a grade and cannot be resubmitted.

### **Extensions**

Each student is allowed to have a two-day extension for one course submission, without asking the lecturer for permission. Students will notify the lecturer about using this automatic extension allowance at the time when the submission is due.

## Penalties

There is no formal penalty for missing the deadline, but you must get permission in advance if you have to hand work in late (other than the allowed automatic extension described above). The course coordinator reserves the right not to accept an assignment that is submitted after the deadline without prior permission.

## Materials and equipment and/or additional expenses

There are no special requirements for materials or equipment, but students must have access to the Internet to complete this course.

## Set texts

Levy, M., & Stockwell, G., (2006). *Call dimensions: Options and issues in computer-assisted language learning*. Mahwah, N.J.: L. Erlbaum Associates. VUW Call No. P53.28 L668 C1.
